

THE ELIASON® LWP-3 / DSP-3

Double-Acting Traffic Doors

LWP-3 / DSP-3 DOUBLE ACTING TRAFFIC DOORS

The Eliaison® LWP-3 traffic door is a lightweight, economical solution where visual separation is desired between kitchen and dining areas, customer service and back room, or sales floor and stock room. The door body is constructed of a special alloy .063" thick tempered aluminum that creates a durable door with just the right amount of flexibility. The LWP-3 comes standard with a clear anodized finish. We also manufacture this door with a 16 gauge stainless steel door body (Specify Model DSP-3). Standard vision panels are 9" x 14" set in black rubber molding. Various window sizes and shapes, impact plates, push plates and other options are also available. LWP-3 and DSP-3 models operate on the Eliaison Easy Swing Hinge®.
